

MAX Quote ReCoster

Function: The MAX Quote ReCoster will look for open Quotes that have costs that are not equal to the current cost in the Part Master. It will reassign a cost and calculate a new price for quotes that have higher Part Master costs using the margin percent used originally.

Installation: Run InstallMAXQuoteReCoster.MSI and follow the prompts.

Enter:

1. MAX Server
2. MAX DSN
3. Server User ID
4. Server Password

Run:

Changed	CUSTID	PartID	Quote#	LI	DEL	Quantity	Price	OldCost	NewCost	Margin	NewPrice
<input checked="" type="checkbox"/>	0000020	11000	90000006	01	01	100	\$616.13	\$513.44	\$950.07	0.17	\$1,144.66
<input checked="" type="checkbox"/>	0000020	13000	90000006	02	01	100	\$51.95	\$41.56	\$57.88	0.20	\$72.35
<input checked="" type="checkbox"/>	100	11000	90000004	02	01	10	\$924.60	\$711.23	\$950.07	0.23	\$1,233.86
<input type="checkbox"/>	100	CF1	90000004	01	01	10	\$52.00	\$40.00	\$0.00	0.23	
<input checked="" type="checkbox"/>	11111	11000	90000007	01	01	25	\$500.00	\$400.00	\$950.07	0.20	\$1,187.59
<input checked="" type="checkbox"/>	11111	13000	90000007	02	01	12	\$51.24	\$42.00	\$57.88	0.18	\$70.59

Click "GetOpenQuotes" to display the open quotes with costs different than current Part Master.

Click "ReCost" to re-cost quotes with higher Part Master costs. The Audit report will display when complete.

Audit Lister of Changed Quotes:

PRTNUM	CUSTID	QuoteNum	LI	DEL	OLDPRICE	NEWPRICE	OLDCOST	NEWCOST	GMPCT
11000	0000020	90000006	01	01	616.13	1,144.66	513.44	950.07	0.17
11000	100	90000004	02	01	924.60	1,233.86	711.23	950.07	0.23
