MAX Label Pro

Parts:

Browse: Part ID, Description, Commodity Code, Planner, Buyer

When labels are requested the application check the selected Crystal Report for the following formulas and if they are found sets the value based on what has been entered on the label request form:

MAX Label Pro

Formula Name (Not case sensitive)	Usage
ME	Is set to the user name and is used to select only those records created by this user, in case there are multiple users of th Label Pro application.
ORDR	Is set to the selected sales order
PART	Is set to the selected part
BoxCount	Can be used in the labels
PkgWeight	Can be used in the labels
Comment1	Can be used in the labels
Comment2	Can be used in the labels

The application creates and uses two custom tables in the MAX database called:
 CUSTOM_BPT_LBLPRO_DETAILS: Label Details

dbo.CUSTOM_BPT_LBLPRO_DETAILS

- 
Columns
 -  RECID (int, not null)
 -  UserName (varchar(50), null)
 -  ORDNUM (varchar(8), null)
 -  LINNUM (varchar(2), null)
 -  DELNUM (varchar(2), null)
 -  CUSTID (varchar(30), null)
 -  CUSTNAME (varchar(30), null)
 -  VENDID (varchar(30), null)
 -  VENDNAME (varchar(30), null)
 -  ORDEREDBY (varchar(30), null)
 -  CUSTPO (varchar(30), null)
 -  PARTDESCRIPTION (varchar(120), null)
 -  QUANTITY (float, null)
 -  UOM (varchar(3), null)
 -  PARTID (varchar(30), null)
 -  COMMENT1 (varchar(50), null)
 -  COMMENT2 (varchar(50), null)
 -  ExtraRecID (int, null)
 -  LABELNO (int, null)

CUSTOM_BPT_LBLPRO_EXTRA: Part Image from VIEWER_01 in Part Master

dbo.CUSTOM_BPT_LBLPRO_EXTRA

- 
Columns
