MAXToolKit Software Updates

Significant enhancements have been added to the following MAX Tools. If you have a current Customer Service Plan, updates with these enhancements will be available for download. These are software only updates. There is no upgrade process required. If you have installed MAX Workbench V16.3.3 or higher the updates will be downloaded and installed automatically if you have MAX Workbench configured for auto updates.

Below are enhancements included in the updates. For a complete list of changes to an application view the application Change Log. For more information about any application, visit MAXToolKit.com. For more information about the Customer Service Plan visit our [Customer Service Plan page](#).

Quick Data Loader - Latest version 17.2.2

[View the complete change log](#)
