

Part Cloner

Zip through accurate creation of new Part Master records using MAX Part Cloner!

Simplify your business processing and proactively ensure your Master Records consists of accurate data. MAX Part Cloner is an efficient tool that enables you to easily and reliably create new Part Master records by copying existing part data.

A complicated part with many attributes could take up to an hour to create. MAX Part Cloner uses existing parts as templates for new part creation. Similar parts can be created with just a few clicks. You will save keystrokes, ensure consistency, and reduce errors.

Speed up the creation of new Part Master records and protect the integrity of your data.

- ✓ Select the part information you want to copy and quickly create new, similar parts.
- ✓ Select specific data to be copied while entering unique new part data on the same easy window.

MAX Part Cloner provides the ability to clone all the data from an existing part including Parts Notes, Product Structure, Part Sales, Prices Breaks, BOM Notes, Routing, Routing Notes, Part Vendors, and Manufacturers Part.

Features and Benefits

- **Flexibility** | Create a new part by selecting or changing ANY field of any existing part, including part notes, part sales, part vendor, manufacturers part, and more...
- **Control** | Selectively copy the source part BOM and exclude, add or change components as needed. Choose to copy routing from the source part and select/change operations.
- **Easy Editing** | Enter the new part data on the same window as the source part data.
- **Productivity** | Accurately and consistently create new part records in minutes.

Remove unnecessary restrictions, reduce effort, and take control changes to existing IDs with ID Changer for MAX!
