Post Master is the industry leading automated batch posting tool for GP. You can post batches immediately or on a schedule and can save posting reports to PDFs or email them. The Multi-Instance version of Post Master can post multiple batches simultaneously, helping customers easily post hundreds of thousands of transactions per day. Post Master runs as a Windows Service and does not need a GP client to be running. [Envisage Software](#)

Comprehensive Payroll and HR Solutions for Microsoft Dynamics GP

From managing leave benefits, complex payroll posting requirements or payroll corrections and adjustments; to automatically e-mailing direct deposit statements and W-2 statements or processing hypothetical payroll calculations, we take Microsoft Dynamics ® GP Payroll and HR from good to great!

We implemented Microsoft Dynamics® GP HR and Payroll across our seven entities along with three Integrity Data products: Employee E-Mail Suite, Negative Payroll Transactions, and Comprehensive Leave Manager. These Integrity Data products have helped us implement processes not handled by the core GP Payroll functionality, eliminating time-consuming and costly

ACA Compliance Solution

We make Affordable Care Act compliance reporting and tracking for employers a non-issue with a smart, 360° tracking and reporting engine. From year-round eligibility tracking and affordability testing to generating, coding and printing the required IRS 1094-C and 1095-C forms, we provide a one-stop shop that alleviates your ACA concerns.

“The only solution that made sense with the least amount of work for us was Integrity Data’ s ACA Compliance Solution. Their solution was the only one that allowed us to use what we already have and keep everything in-house.” – Sabrina Spencer, COO, HealthBack Home Health.
